# Introduction

The IAIAasa National Conference attracts up to 350 attendees every year and serves as the primary networking event for members. The conference has been held annually for the past 30+ years (virtually during the Covid 19 period). IAIAasa has hosted two international conferences, as well as the International Climate Change Symposium in 2022 in Cape Town.

The IAIAasa Conference is based on the scientific conferences model encouraging experienced practitioners, young professionals, researchers and students to share and develop knowledge. Presenting at an IAIAasa Conference affords presenters the opportunity to demonstrate learning, develop others to improve practice, and gain recognition in the sector.

# Early Bird Rates

## Individual & Group Registration (VAT inclusive)

Early Bird Registrations are designed to offer the best value for all delegates especially independent practitioners who are unable to leverage the economies of scale afforded to larger organisations holding Group memberships with IAIAAsa.

# Presenter Rates

The success of previous conferences has allowed a special Presenter Rate to be offered in 2025. The IAIAAsa National Executive Committee (NEC) hopes this will continue to encourage presenters to share their work with our delegates. A rich and interesting programme is our success.
